

Accounting

Program Overview

The Bachelor of Science degree with a major in Accounting is designed to provide students with a broad overview of accounting theory and practice while also allowing students to gain in-depth knowledge in an area of their choice such as taxes, financial accounting, manufacturing accounting, and governmental accounting.

LU-Tulsa accounting graduates work for public accounting firms, manufacturing and service firms, governmental, and non-profit institutions ranging in size from a few employees to those with International operations.

LU-Tulsa graduates who aspire to pass the Certified Public Accounting (CPA) exam have experienced a success rate far greater than the national average. While only 10-15% of CPA candidates pass the exam on their first attempt, LU-Tulsa graduates have traditionally had a successful rate of 30-40%. Since 1986, four LU-Tulsa alumni have earned the highest score on the CPA exam. Two alumni have earned the 2nd highest and two alumni have earned the 3rd highest score.

Admissions Requirements

- ❑ Completed Admission Application from Langston University-Tulsa
- ❑ A minimum of 48 transferable college credit hours
- ❑ A minimum 2.0 GPA on a 4.0 scale
