GRANT INFORMATION

The White House Initiative on Historically Black Colleges and Universities (WHIHBCU) has been hosting a series of webinars to educate Historically Black Colleges and Universities on the grants and resources available to them throughout the federal government.

On **Tuesday, August 16, 2016** the initiative will co-host a webinar with the **FBI's Office of Partner Engagement (OPE)**. OPE builds bridges, creates new partnerships, and strengthens and supports relationships with state, local, tribal, and campus law enforcement. OPE serves as the FBI's primary liaison for the law enforcement community, representing the perspectives of chiefs, sheriffs, and law enforcement associations within the FBI. The OPE also manages outreach programs, including FBI support to state and local Fusion Centers, along with the Countering Violent Extremism, Active Shooter, and Police Executive Fellowship programs. The office implements national-level initiatives and strategies which support engagement, communication, coordination, and cooperation efforts with law enforcement, intelligence, and public agencies and partners in a continuous effort to enhance the FBI's capabilities.

The FBI plays a critical role in enforcing campus safety, public safety and providing other resources to HBCUs and Minority Serving Institutions. This webinar will highlight the FBI's resources and support they provide for Historically Black Colleges and Universities (HBCUs). Attendees will gain an understanding of how their work, needs and research match available FBI opportunities .

Webinar information is forthcoming. Please distribute to your networks!
