

Langston University Institutional Advancement & Development
Grant Routing Form
Private (501(c)(3) Status required) Grants

Procedure for Submission

To provide the greatest chance of success in securing grant monies, the Office of Institutional Advancement and External Affairs offers the following guidelines for the routing of private (non-research) grant proposals.

All non-research grant proposals (grants that require 501 (c)(3) status) to external, public or private agencies, private foundations, organizations or other private entities that are being submitted through IAE and the Director of Corporate and Foundation Relations, including those proposals that ultimately will require resources provided by Langston University, must be routed through IAE and the LU Foundation for approval prior to submission to the external agency.

Before beginning preparation of the proposal, the Director of Corporate and Foundation Relations should be notified in writing (e-mail acceptable) the name of the grant, funding agency, Principal Investigator (PI) as well as the proposal due dates.

A draft of the private (non-research) grant proposal (including the budget) along with the grant routing form signed by all relevant parties must be given to the Director of Corporate & Foundation Relations **at least seven (7) working days before it is due to the funding agency**. The CFR will obtain approval of the proposal budget and signatures from the VP for Academic Affairs, VP for Institutional Advancement and External Affairs and the LU Foundation and will electronically submit or mail the request on behalf of the university to the funding agency. You will be notified via email when your proposal has been electronically transmitted or mailed.

A copy of the full final private (non-research) proposal and budget will be provided to the PI within one week after submission to the agency. A copy will be kept on file within the IAE offices.

Once the award has been secured, the following procedure will be followed:

- Award Funds will be deposited and a budget will be established in a new account within the LU Foundation
- Transfers will be made to the university at appropriate times.
- PI will be required to help prepare all program reports to awarding agency that will be submitted by the CFR Director
- The CFR Director will be responsible for submitting any financial reports required by the awarding agency.
- When the private (non-research) grant is complete the organization will be deactivated.

****Please do not use these guidelines or use the attached grant routing form if you are interested in submitting a grant proposal to a state or federal agency or any grant funding organization that does not require 501 (c)(3) status. You will need to contact the Office of Sponsored Programs at 466-2039 and follow their proposal submission guidelines.**
